To: Gerry McDonagh, Grant Administrator, State of Alaska Department of Labor & Workforce Development
From: Mike Andrews, Director, Alaska Works Partnership, Inc.

Grant Performance to Date

Performance measures that were originally outlined in the grant are that AWP would train 60 new (1st year) BMR Technicians and 40 existing (2nd year) BMR Technicians for a total of 100 participants. AWP has trained a total of 68-new, 1st year BMR apprentices and 43-2nd year BMR apprentices and approximately 100 of those apprentices have been employed by their RHA's. Apprentices have accumulated > 85, 000 on the job paid training hours. (See chart on following page)

AWP has expended nearly all funds available for the original grant, (\$400,000) at a cost of approximately \$3,604.00 per individual (400,000/111) to obtain a total of three (3) training courses for first-year and two (2) courses for each 2nd year participants as indicated on the table on the following page. (See *Training Schedule of Courses form July 1, 2002 to May 31, 2003*)
